

Who we are and what we do

TTTech Auto designs and implements safety-critical and future-proof platform-centric solutions for the automotive industry. The company provides safety software platforms and integration services, paving the way towards highly automated driving and autonomous vehicles. TTTech Auto was established by TTTech together with leading industry partners and builds upon the TTTech Groups automotive ADAS series production experience and world-class safety technologies.

TTTech Auto relies on vast software engineering excellence. The most recent strategic expansions added development and distribution sites in Spain, Croatia, Serbia and Turkey to its global footprint. Close relations with technical universities support the company's overall growth.

TTTech Auto operates under the umbrella of the TTTech Group, a globally oriented group of high-tech companies providing leading real-time networking platforms and safety controls. TTTech Auto is headquartered in Vienna, Austria.

1,200 people work for TTTech Auto in its offices in Austria, Germany, Spain, the CEE region, USA and Asia.

TTTech Auto Facts	
Founded	2018
Headquarters	Vienna, Austria

Gross performance 2019	94 million Euros
Global presences	Austria, Germany, Spain, Serbia, Croatia, Turkey, USA, China, Japan
Strategic investors	Audi, Samsung, Infineon

The future of mobility is automated

The flagship product of TTTech Auto is MotionWise, a series-proven software platform for automated driving, providing unique integration and real-time orchestration of applications, global scheduling logic and tools. Using the platform, OEMs and Tier 1 suppliers can reduce their development, testing and validation complexity and ensure that essential safety and mission-criticality requirements can be met in both single or multi-SoC environments at reduced cost.

TTTech Auto's MotionWise is a vital part of the Audi A8 computer. Furthermore, MotionWise is part of series production programs for example with SAIC Motor Corporation in China and Hyundai Kia Motors Corporation in Korea.

The testing tools "Power Family" and standard ECUs complete TTTech Auto's portfolio.

Offering

Solutions for future vehicle generations			
MotionWise, safety software platform for automated driving	Power Family testing tools	Standard ECUs	Automotive Ethernet
